***Detailed Action***

This is the third Office Action corresponding to amendment filed June 7, 2006.

The application contains 35 claims.

***Claim Rejections - 35 USC § 112***

Claims 1-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The new limitations of claims 1, 22 and 23 are not found in the specification. Applicant argues that Fig 3 provides basis for the control unit to be *movably connected to the base hinge*, and for the rotation unit to be connected to the base hinge *by pushing*. Fig 3 shows that the rotation is attached to the hinge (is this what applicant means?) but no “pushing” is shown, even though it can be argued that the rotation is “pushed” in order to provide a positive engagement. However, this specific language lacks in the specification. Applicant must present more details arguments explaining how Fig 3 discloses that, and amend the specification to include the specific language presented in the claims.

Claims 22-35 are also rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

No proper antecedent is found in claims 22 and 23 (third line) for “the base member”

***Response to Arguments***

Applicant's arguments have been addressed on the above rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
